

Civil Reports (Superior Court)

The statewide Automated Case Management System (ACMS) is used by the New Jersey Superior Court to index and docket Law Division (Civil and Special Civil Part) cases and Chancery (General Equity and Foreclosure) cases. ACMS archives cases that have been closed for 18 months; only active cases remain on ACMS with the exception of Special Civil Part cases. Special Civil Part cases will remain on the active database as long as there is a judgment entered in that case. The limited case information that has been archived by ACMS is then moved to the Archive Management Information System (AMIS) where it remains permanently. Case information is pulled from these systems to generate the reports available for sale.

Each report can be requested by Venue or by Court. There are 21 venues (counties) in New Jersey and three courts: Law-Civil (LCV), Law-Special Civil (SCP), and Chancery (CHC). A report that is requested by Court will provide case information from a particular Court for all 21 venues. A report that is requested by Venue will provide information only on those cases filed within the chosen venue.

Note: Electronic information is made available only in the form in which it is maintained or used by the Judiciary, pursuant to Court Rule 1:38. The Judiciary does not engage in custom programming for private interests.
