

Wireless AirPlay through AppleTV

Apple devices can be used in our courtrooms to project wirelessly to an AppleTV device connected to our media carts or in Courtroom 202. However, the Apple device must be Peer-to-Peer Airplay capable. According to Apple, the device must meet the following requirements to be capable:

- Mac device
 - Must be manufactured in 2012 or after and be running Yosemite or later operating system.
- iOS device
 - Must be manufactured in late 2012 or after and be running iOS 8 or later.
