Templates Available in Follow-Ups Tab

To facilitate the completion of follow-up actions, template documents have been added to Report Review. Users now have uniform, approved templates for use in completing the follow-ups with guardians.

The system dynamically displays the templates based on the follow-up action specified by the reviewer. The documents appear as links and open into Word so they can be tailored as needed. Users will then mail or email the documents to the appropriate parties.

Noticing

The noticing program has been enhanced to allow the program to differentiate between guardians with the same first and last names. Previously, if guardians had the same names, distinguished only by a suffix (such as "Jr."), only 1 notice would go out.

Going forward, the noticing program will consider additional fields so that noticing will be accurate.

Example: previously, one notice would have been sent for these 2 guardians. Now, each will receive a separate notice.

Case Action

'Case Action' has been enhanced to include a new reason for closing a case: "Transferred Out of Country":

| ▼ Case Action | | | | | |

| * Case Action: Close | Case 🗸 | | | | |
| * Case Closed Reason: | | | | | |

Note: this enhancement is being deployed in two pieces. The next deployment will include required fields for: 1) entry of the 'Actual Case Closed Date'; and 2) selection of country the case was transferred to (dropdown).

In the meantime, the database will capture the case closed reason and the date the case was closed.

Judgment Accordion

A fix has been deployed to ensure that the 'Supplemental Inventory Required' field is always populated when an Amended Judgment is uploaded.

Previously, if multiple documents were uploaded along with the Amended Judgment, the 'Supplemental Inventory Required' field was left blank.

Report Review

A fix has been deployed so that when a case is closed by upload of the document type "IP Death Certificate", all report reviews are dynamically closed and removed from the work basket in real time.

Prior to the fix, the reviews were closed overnight. The fix increases efficiency by ensuring that only reviews on open cases remain in the workbasket.

To support accurate case data and streamline user experience, the document type "IP Death Certificate" is now available. Upon upload of the document type, the case is *automatically closed*.

This document type is solely for upload of death certificates for incapacitated persons. The 'Other' document type should continue to be used for guardian death certificates.

Additional information:

- All pending report reviews for the case will be automatically closed
- The date of death entered at upload auto-populates the date of death field in the IP profile
- The case can be re-opened via the Case Management tab
- Cases can be created and closed in one session, but Case Initiation Documents remain the required first upload

Report Review Fix

A fix has been deployed to Report Review to ensure that multiple updates to the bond fields are now captured correctly in Report Review.

Prior to the fix, if the bond fields were updated from 'Yes' to 'No' (or vice versa) and back again, the update was not reflected in the 'Case Information' section in Report Review. This fix ensures that: 1) data in the system is proper and consistent; and 2) reviews will be routed correctly in Report Review.

Report Review will always reflect the bond fields in Case Management:

Estate Value Table

An enhancement to the Estate Value Table has been deployed to more accurately reflect the source of the initial estate value entered upon upload of Case Initiation Documents. The table will now reflect that the value is taken from the Certification of Assets. This change is not prospective; all cases have been updated.

Report Review Fixes

Two fixes have been deployed to Report Review: 1) SS Representative Payee Report values are now included in the estate values displayed in Report Review; and 2) updates to the bond fields are now captured correctly in Report Review.

SS Representative Payee Report

Prior to this fix, when an SS Representative Payee Report was uploaded, the estate value entered was not included or displayed in the current net estate value displayed in Report Review. The fix ensures that the estate values displayed in the system are consistent and accurate.

Estate Value Table in Case Management:

| Estate Value | Initial Estate Value: \$ 3,450 | | | | Current Net Estate Valu | ue: \$ 3,451 | |
|-----------------------------|--------------------------------|----------|----------------|--------------------------------|-------------------------|--------------|------|
| Initial Estate Value: 3,450 | | | | | | | |
| Date | Estate Value | % Change | Transaction ID | Action | Last Modified By | Modified | Edit |

Bond Field Updates

Prior to the fix, if the bond fields were updated from 'Yes' to 'No' (or vice versa), the update was not reflected in the 'Case Information' section in Report Review. This fix ensures that: 1) data in the system is proper and consistent; and 2) reviews will be routed correctly in Report Review.

Prior to the fix, if 'Bond Required?' was changed from Yes to No, Report Review would continue to display the bond amount originally entered instead of updating.

| * Bond Required?: * Amended Bond?: | ○ Yes ● No ○ Yes ● No |

| Case Information | |
| Docket Number | |
| Morr-123456 Judgment Date | |

Now, if a bond goes from Yes to No, 'Case Information' properly displays dashes.

Steps:

Original case entry, showing a \$5,000 bond is required:

New Issue in Report Review

A new issue has been added to the 'Issues' dropdown in Report Review to allow users to record changes to a guardian's criminal or civil judgment history including a bankruptcy filing. Changes to a guardian's criminal or civil judgment history are reported on the "Report of Guardian Cover Page" which is required to be filed with all report types.

"Change to criminal or civil judgment history including bankruptcy" now displays in the 'Issues' dropdown for question 8 in Inventory Report reviews and in question 11 in Periodic Report reviews (EZ Accounting Report, Comprehensive Accounting Report, Annual Report).

- 1) A tool tip has been added to direct users to the Report of Guardian Cover Page to determine if a change to judgment history has been reported
- 2) The new issue displays in the 'Issues' dropdown

Fix for Case Duplication Issue

A fix has been added to ensure that duplicate cases are not created if users click on non-system buttons after creation of a new case. An error message now displays with instructions directing the user to the correct tab.

Previously, the following steps resulted in a duplicate case being entered into eCourts:

1. After successful creation of a new case, clicking the back browser button from the 'Confirmation' screen.

Note: Use of non-system buttons is never recommended. If the system permits users to move back, a 'Back' button will be provided.

- 2. Clicking 'Refresh'
- 3. Clicking the 'Submit' button after the screen re-loads

eCourts – Civil Guardianship Report Review Release Notes

Report Review

| New | |
|-----|--|
| | |

Report Review has been enhanced to implement the automated "Minnesota Model", which focuses Finance's attention on higher estate value reports. For more information, click <u>here</u>.

Automated MN Model Review Routing

Report Review has been enhanced to include the MN Model of automated report routing from New Report Review to Finance Review. Specifically, all reports with a bond in an amount greater than \$0 and/or a report level net estate value of \$10,000 or greater will be routed from New Report Review to Finance for review.

This enhancement streamlines the review process and focuses Finance review where it has been most needed historically.

- Volunteers will continue to review all reports
- Routing will occur whether or not issues are identified in New Report Review
- The criteria are "and/or" so only 1 of the criterion must be met to trigger the routing
- The MN Model focuses Finance's attention on reports with higher net estate values and bonds

Bond information is located in the Case Information section of each review:

| IP Name | Report type | Status |
|-----------------------------------|---|---|
| Elizabeth Hawksmith Filed Date | Inventory Initial Estate Value | New Report Current Net Estate Value |
| 10/26/2021 Transaction ID | \$76,890 | \$0 |
| GMP20214751 | | |
| | | |
| | Elizabeth Hawksmith Filed Date 10/26/2021 Transaction ID | Elizabeth Hawksmith Inventory Filed Date Initial Estate Value 10/26/2021 \$76,890 |

The report level net estate value is located in the final question in every review:

| New Report Review | |
|--|------------|
| Answer all questions below based on comparison to the Certification of Assets. | |
| 1. Is the reporting period correct? | 🔿 Yes 🔿 No |

Report Level Estate Values Have Been Corrected

The report level net estate values (RNEV) for cases in the New Report Review workbasket have been updated to blanks for reports uploaded prior to the collection of estate value at upload. Previously, reviews incorrectly displayed the current net estate value (CNEV) in the RNEV field.

NOTE: Cases in the Case Review workbasket are not impacted by this fix because the reports have been reviewed, and presumably the RNEVs have been updated as needed.

Example:

- Report uploaded prior to 3/2020 when estate value field was added to the upload screen
- Previously, the review would display the CNEV in the RNEV field (#14 in the review)
- Now, the RNEV field will be blank in the New Report Review workbasket
- Users will enter the correct RNEV from the report

Corrected display:

Users Are Able to Access Only Those Cases Within Their Assigned County

A fix has been implemented so that users will only be able to access those cases that are appropriate based on their security access parameters.

If only 1 case is returned in search results, and that case is not within the user's assigned county/counties, a message will display. (NOTE: this message will display in Case Management beginning on November 1, 2019. Beginning on November 9, 2019, the message will also display in Upload Document.).

The results are the same for docket number and name searches. New message:
