How to Use Help

The Foreclosure Case Management help system is designed to assist users with navigating the application. The help system will cover how to manage the electronically filed documents and navigate the case jacket. The help system is web-based and can be accessed while logged into the eCourts application.

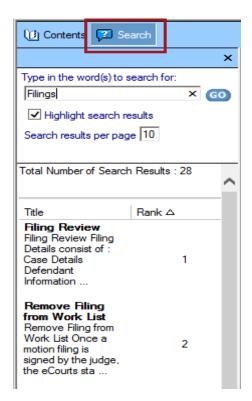

1. Help can be accessed by the clicking the link stationed in the top right hand corner of each screen.

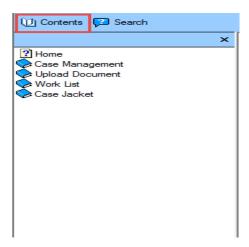

2. The Help section will explain the various buttons and links populating each screen, and will also explain the expected actions anticipated for each screen.

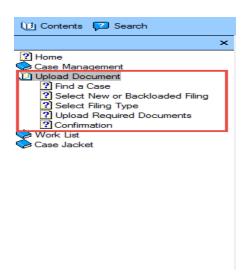

3. The Search box provides an option to search for a specific topic or phrase:

4. The Contents icon refers to the TOC (Table of Contents).

5. Select the book icon to display the topics included.

The book icons include topics relevant to the book name that is defined. For example, all content related to the Work List details would be listed under 'Work List.'

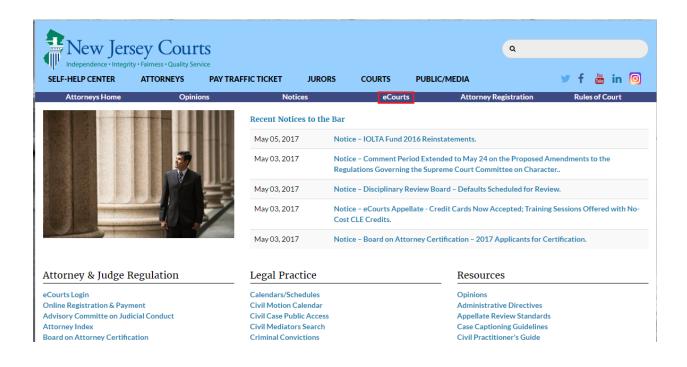

Introduction

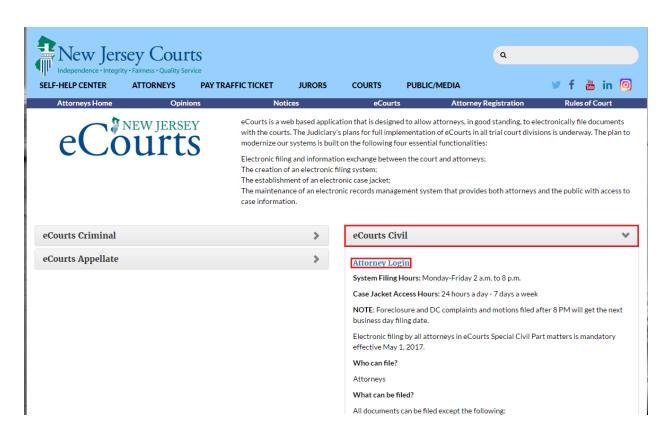

eCourts is a web based application that is designed to allow attorneys in good standing to electronically file documents to the courts. As documents are filed, they will automatically be added to an electronic case jacket, which can be viewed by the attorney and court staff.

HOME

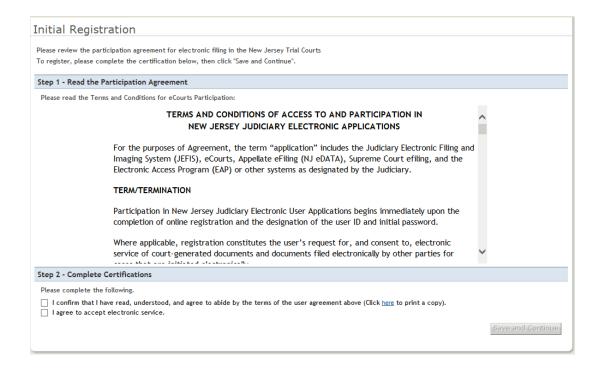

Use the eCourts URL to log into eCourts, or log in by accessing www.njcourts.gov> Attorneys>eCourts*eCourts "court section"> Attorney Login.

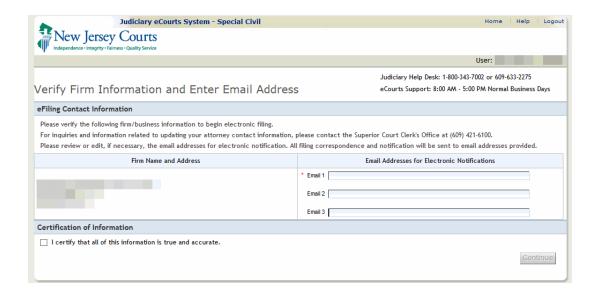

After the login has been completed, the user will need to acknowledge the participation agreement.

After this point, the user can verify their firm information and will also be prompted to enter up to 3 Email addresses, which will receive all eCourts notifications regarding cases in which the attorney is assigned.

After clicking 'Continue' the user will be taken to the eCourts Home Page, where the appropriate Court/Division can be selected

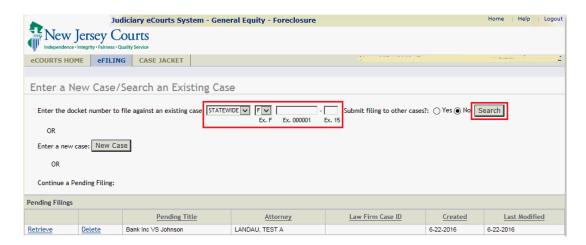

From this point, the user can select the area in which to work, by clicking the respective tab at the top of the screen.

eFiling Tab

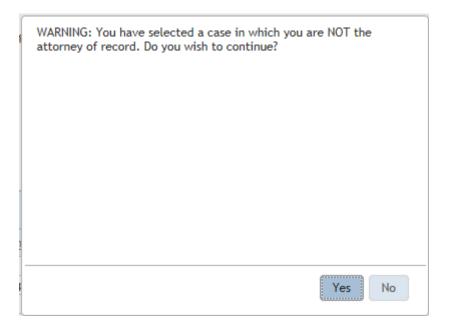

From the eFiling Tab, the user will have the ability to perform the following functions:

- File against an existing case
- File the same document against multiple case
- File a complaint
- Retrieve a previously saved complaint

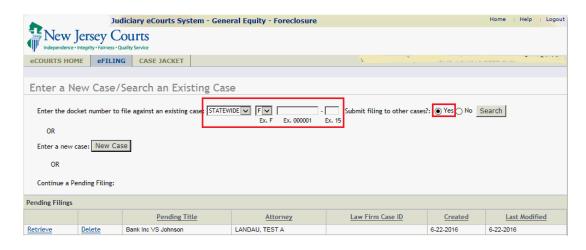

To file against an already existing case, simply enter the docket number of the case and select the 'Search' button.

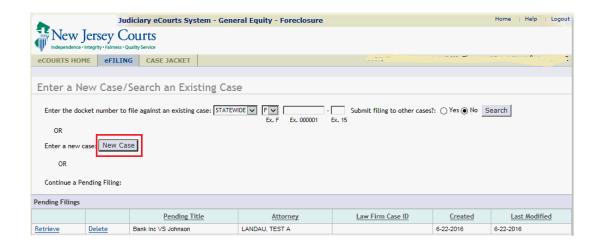

Note: In the event the user is attempting to file against a case in which their firm does not currently represent a party, the system will display a warning popup making the user aware of the situation. This warning will not prevent filing, it simply displays for acknowledgement purposes.

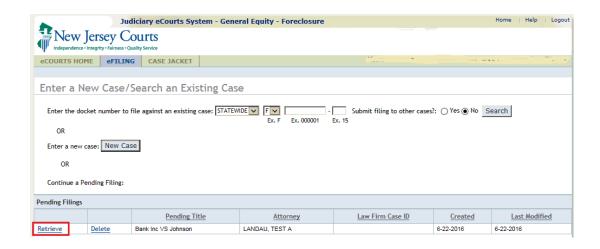

To file the same filing against multiple cases, enter the docket number from one of the cases, select 'Yes' to submit filing to other cases, then click the 'Search' button.

To initiate a case and file a complaint, click the 'New Case' button.

To retrieve a previously saved complaint, click the 'Retrieve' link from the Pending Filings section.

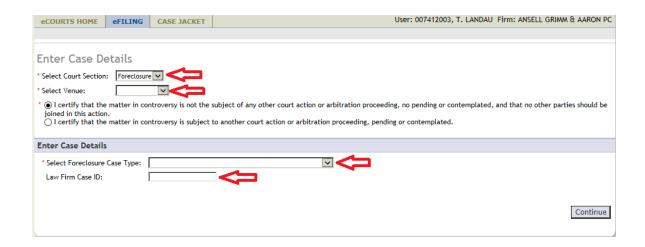

Upload Document - Case Initiation

Enter Case Details

This screen allows the filer to enter the case details pertaining to the complaint filing.

Note: In the event the user is retrieving a previously saved complaint, the system will return to the 'Enter Case Details' screen. The user will need to progress from that point forward.

To enter the case details follow the steps below:

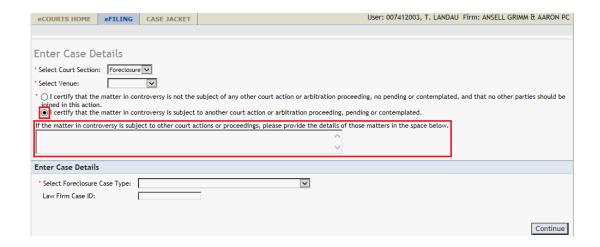

1. Select the Court Section.

Note: This field will be defaulted to Foreclosure

- 2. Select the Venue.
- 3. Acknowledge the Certification of No Other Action.

Note: In the event the matter in controversy is subject to another court matter, the filer will be presented with a text box where that information can be provided

- 4. Select the Foreclosure Case Type
- 5. Enter the Law Firm Case ID if one is utilized by filer's firm.

Once the case details have been entered, click 'Continue'

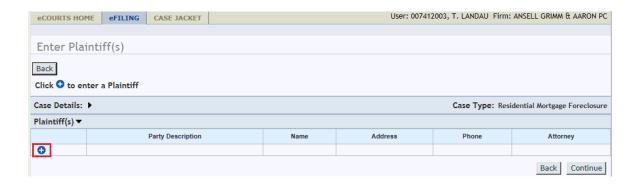

Enter a Plaintiff

For specific details on how to add a defendant, click this link.

The filer will be required to enter the details for each plaintiff.

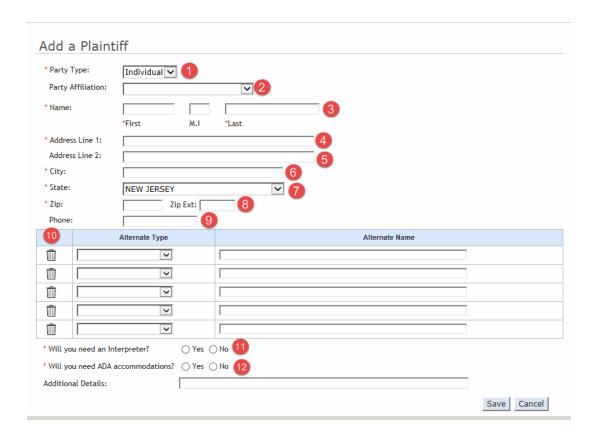

To add a plaintiff follow the steps below:
