SUBJ: Civil Commitments – Protocol for Applications Pursuant to
N.J.S.A. 30:4-27.9a

DATE: February 6, 2024

DIRECTIVE #01-24
[Questions or comments may be directed to
(609) 815-2900, ext. 54900]

On August 16, 2023, N.J.S.A. 30:4-27.9a was signed into law and became effective immediately. The law expires by its own terms within the next two years. The new law amends the civil commitment statutes to extend the existing timeframes to obtain a civil commitment order where certain conditions are met. It is intended to address issues faced by some general hospitals in coordinating for transfer of a patient to an inpatient psychiatric facility.

The existing timeframes do not allow an individual to be detained involuntarily for more than 72 hours from execution of the screening certificate without a temporary court order.

The new law allows a general hospital (rather than a psychiatric hospital), or emergency department within a general hospital, to submit an emergent application to the court for a temporary court order permitting the continued hold of an individual for up to an additional 72 hours beyond the initial 72-hour period typically allowed in civil commitment matters.

This directive promulgates the following protocol for filing applications pursuant to N.J.S.A. 30:4-27.9a with the court:

- (1) All applications pursuant to N.J.S.A. 30:4-27.9a should be filed with the court using encrypted e-mail to ensure confidentiality. Guidance on sending encrypted e-mail using Microsoft Outlook and a

spreadsheet identifying where applications should be filed can be found in Attachments A and B, respectively.

- (2) Applications pursuant to N.J.S.A. 30:4-27.9a should include the following items:
 - a. Application;
 - b. Proposed Order Appointing Office of the Public Defender (“OPD”) as Counsel (Attachment C);
 - c. Screening Document;
 - d. Screening Certificate;
 - e. Clinical Certificate (Attachment D);
 - f. Certification of Efforts to Find a Bed (Attachment E); and
 - g. Proposed Temporary Order for Continued Hold (Attachment F).
- (3) The hospital will file any such applications as soon as it is determined to be necessary, copying the OPD simultaneously on the first filing with the court. The hospital must provide the OPD with notice of each step of the emergent application thereafter. The hospital should also provide a copy of the application and any orders entered to the applicable County Adjuster’s Office and County Counsel.
- (4) The court will enter an order that appoints the OPD as counsel for the patient and allows OPD prompt access to the patient and the patient’s medical records. See Attachment C.
- (5) The court in its discretion can decide the application on the papers or conduct a hearing if requested by counsel. If the court conducts a hearing, the court shall determine whether to hold that hearing in person or virtually based on the apparent complexity of the matter and the extent of doubt as to the merits of the application. The court shall enter or deny a Temporary Order Regarding Continued Hold of the patient following its decision on the application. See Attachment F.
- (6) After the hospital has located an inpatient treatment facility for the patient and transported the patient to that facility, the receiving facility will apply to the court for a Temporary Order for Involuntary Commitment To Treatment Of An Adult (Inpatient Treatment). See Attachment G.

Assignment Judges are asked to provide copies of this Directive to those judges handling civil commitments.

Questions related to this Directive should be directed to the Civil Practice Division in the Administrative Office of the Courts at (609) 815-2900 x54900 or by email to civilwebsites.mbx@njcourts.gov.

**STATE OF NEW JERSEY
DEPARTMENT OF HUMAN SERVICES
Division of Mental Health and Addiction Services**

**CLINICAL CERTIFICATE
FOR INVOLUNTARY COMMITMENT OF MENTALLY ILL ADULTS
AND AN EMERGENT APPLICATION
FOR A TEMPORARY CONTINUED HOLD ORDER
PURSUANT TO P.L. 2023, c. 139**

If additional space is needed to provide the information requested, additional documents may be attached to this form.

I. General Purpose and Instructions

In accordance with P.L. 2023, c. 139, when a general hospital has not located a receiving inpatient treatment facility for an individual in need of involuntary commitment to inpatient treatment within seventy-two hours of the completion of a screening certificate, a general hospital may make an emergent application to the court for a temporary court order permitting a continued hold of an individual in need of involuntary commitment to inpatient treatment for up to an additional seventy-two hours. As part of the general hospital's emergent application, the general hospital must demonstrate that "there is a substantial likelihood that, by reason of mental illness, the [individual] will be dangerous to the [individual's] own self or others" Ibid. In support of this, the general hospital must submit two certifications from 2 psychiatrists who have examined the individual and found the individual in need of involuntary commitment to inpatient treatment as a result of mental illness that causes the individual to be a danger to themselves or others.

Pursuant to P.L. 2023, c. 139, only a psychiatrist is authorized to provide a certification in support of the emergent application. The psychiatrist certifications must be completed by a psychiatrist who is licensed as a physician to practice medicine in New Jersey and who has completed the training requirements of the American Board of Psychiatry and Neurology or the American Osteopathic Board of Neurology and Psychiatry. See N.J.A.C. 10:31-1.3.

For the two required psychiatrist certifications, the general hospital may:

1. submit the initial screening certificate completed by the screening service psychiatrist for the individual and this clinical certificate completed by a psychiatrist employed by or providing consulting services to the general hospital; or
2. submit two of these clinical certificates; each certificate must be completed by a psychiatrist employed by or providing consulting services to the general hospital.

However, as limited by P.L. 2023, c. 139, the screening certificate referenced above cannot be used when: (1) it is completed by a physician who is not a psychiatrist; and/or (2) there is a finding that the individual is in need of involuntary commitment to inpatient treatment solely as a result of dangerousness to property.

For additional information about involuntary commitment, including definitions of terms and/or legal

standards, see P.L. 2023, c. 139, N.J.S.A. 30:4-27.1 et seq., and N.J. Court Rule 4:74-7.
