COMMENTS ON ATTORNEY ETHICS-MISCONDUCT

THE investigator assignment should be a paid position and random audits conducted to ensure work completed before submitting to the committee and before recommendation to that committee

A- legal issues raised by claimant must be addressed and findings of facts arising from the issues as performed by investigator.

B-the committee must answer any questions that arise from the claimant as to RPC8.4 (Misconduct). Findings based on inquiry.

The committee will set up standards holding investigator responsible for work performed.

le- Claimants accuse attorneys of forgery and false statements and provides detailed contact information to investigator. A notary document used in court by the attorney and false statements to the court to persuade a judge. The notary access contact phone and address given to verify I found to investigator.

Investigator shall be compelled to follow up with this evidence and provide results to both parties five prior to any recommendations to committee.

This standard will protect the Ethics Committee and add value to IT'S FUNCTION to Protect Public Interest .

Sincerely,
