Subject: Proposed amendment to Rule 1:4-9

The proposed amendment to the Rule addresses "All filings," but it is unclear whether this includes the required courtesy copy of e-filed motions that attorneys must mail to the judge who is on the case. For example, it's not clear whether I must use only one side of the paper in the courtesy copy of a motion that I send to the judge. If the rule is meant to capture courtesy copies for judges (or not), please add language to clarify this.

Thank you,
