Re: Proposed Amendment to Rule 4:64-2

I vehemently object to the proposed amendment to Rule 4:64-2, to change the language from **affidavit** to affidavit or certification. It would allow the false certifications that are now being filed in the New Jersey Courts, to continue to be filed, and call into question the integrity of the New Jersey Judicial System, as a whole.

I'd like to request information on how this proposed rule amendment, even came to be. I've read the Special Committee Report and have failed to find where the Special Committee even recommended this amendment. Who tried to slip this in? I'd like to know. I am outraged.

The foreclosure bar in the state of New Jersey were already handed a shortcut, that they haven't even been following, so what do we do now, hand them another free pass? It's an outrage and I would greatly appreciate it, if you would publicly disclose this comment.

Sincerely,

Vincent Fardella
