I'm lost at how the government can b helping people and hurting people at the same time, meaning the landlords didn't bring the virus here and they were affected as well and they trying 2 move on with life and I think after a year and some stimulants money the tenants should move on if the landlords evicted them y are we making people stay on people property where there's tension 4 whatever reason the tenants should b gone by now but it's no reason they should still b there except they lookin 4 trouble and the government know they owe alot of money and i don't think the government care that these people owe that money and mortgage and bills have to b paid so y do the landlords gotta get hit by Covid and the government at the same time so What the landlords do but gave people a place 2 live smh I just wanna know what did the landlords do wrong we work 9 to 5 nothin handed 2 us but work. So THE QUESTION I ASKED IS HOW CAN THE GOVERNMENT BE HELPING PEOPLE WHILE HURTING PEOPLE IF U CAN'T SATISFY EVERYONE THEN DON'T SATISFY ANYONE CAUSE THERE IS A GOD

How can they b helping people and hurting people at the same time it ain't right. If u can't help everyone that been through the pandemic than don't help anyone cause remember everyone has been affected by the Covid so y do the landlords gotta still take a beatin from government and covi19 when they did nothin wrong and they been through and still going through the pandemic as well so y it feel like their intentionally trying 2 make people lose their investment while the tenants run wit the landlords money and play kid games and the government not gonna do anything 2 press them 4 our money and I feel like we not gonna b able to even find these people because they leaving the state their in and everything
