CLERK'S OFFICE

Attn: Objection to Notice of Intention to Foreclose

Re: Docket Number F-009564-12

I am objecting to the Notice of Intention to Foreclose dated August 14, 2012, for the following reasons:

I was a victim of fraudulent banking practices. 1.) I paid a discount fee to the mortgage broker and did not get a reduction in my interest rate. 2.) Also, this mortgage instrument was bundled and sold as securities, using the process of "robo signing".

I am requesting that the mortgage be rescinded on the basis of the above facts. As New Jersey lawyer, Joshua Denbeaux has stated, if there is no underlying mortgage there can be no foreclosure.

Respectfully,

Nestor Williams
